2

Period pin up girl seductively beckons with period cursive script. Diamonds also dot the "i". If the nude is too much, a nightie bottom can easily be added.

This design takes root in the first 2 Diamond Lil nose art versions with a simpler fur and a more period correct hair style. Hair will be blonde or red due to the dark green background. Lettering is on a slight curve to mimic Lil's curves, with diamonds in the "i", again aluding to the 2 versions.
